ACADEMIC PROFESSIONAL - SIMULATION AND SKILLS LAB COORDINATOR
NON-TENURE TRACK FACULTY POSITION
BYRDINE F. LEWIS COLLEGE OF NURSING AND HEALTH PROFESSIONS
LOG# 23-097

The Byrdine F. Lewis College of Nursing and Health Professions is seeking an Academic Professional to serve as the Simulation and Skills Lab Coordinator. An Academic Professional is a non-tenure track faculty position. This position is responsible for coordinating the routine activities of the nursing skills lab and simulation suites, instruction, and evaluation of students in the lab setting, maintain the lab environment, and assist in supporting the development and maintenance of the simulation lab curriculum. This position will report to the Director of the simulation center. The Lewis College received a grant to build-out a new clinical simulation center consisting of one large and two medium-sized skills lab and three simulation suites. All new equipment for the center will be purchased over the next year and a half. This position and the Director of the simulation center, along with others, will play pivotal roles in establishing the new center.

Responsibilities include:

• Works collaboratively with faculty to design, plan, implement, and evaluate simulation education lab activities which support student learning outcomes.
• Assists faculty with lab course instruction.
• Coordinates simulation lab usage with other Lewis College departments.
• Plans, implements, and evaluates the use of technology throughout the curriculum.
• Plans, implements, and evaluates theory content.
• Assists in assessing need, care, maintenance, and use of laboratory equipment, supplies, and facilities.
• Requests supplies and equipment as needed.
• Demonstrates leadership and role modeling skills.
• Demonstrates responsibility for continued professional growth, competence, and development.
• Attends and participates in the School of Nursing committees/programs as assigned

Minimum Qualifications:

• Doctoral degree in Nursing (DNP or Ph.D.) with Nursing Informatics or related experience a plus.
• Current State of Georgia Nurse License
• One to three years of experience in simulation and skills lab teaching, or combination of education and experience commensurate with the requirements of the position.
• Recent medical-surgical experience.
• Ability to prepare and organize simulation laboratory and demonstration materials.
• Ability to understand and utilize advanced technical sim-lab equipment and communicate that knowledge to others as appropriate.
• Ability to anticipate and effectively adapt to changes in program requirements and methodology.
• Ability to work effectively with a diverse faculty, staff, and student body.
Working Environment:
Conditions are those of a typical office, classroom and teaching labs, requiring frequent oral and written communication with college employees, students, and vendors, the presentation of information on-line and in face-to-face settings. The ability to be generally and continuously aware of the safe and appropriate operation of the lab equipment and material is essential. This position may have work obligations outside the university’s normal business hours.

Georgia State University:
The Lewis College is one of 12 colleges that comprise the dynamic and innovative Georgia State University. At over 100 years old, Georgia State has a highly diverse student enrollment of over 52,000 and over 50 nationally and internationally ranked programs. Atlanta offers an ideal setting for GSU’s urban research mission. The University is strategically located in downtown Atlanta and is only 15 minutes from the world’s busiest airport, blocks from the State Capitol and the largest public health hospital in the Southeast, and close to the Centers for Disease Control and Prevention. Recently, the University broke a number of major records including research funding, fundraising, freshman class size and applications and six-year graduation rates. GSU was named the number one public university in the country for an unusually strong commitment to undergraduate teaching and the number two most innovative university in the U.S by U.S. News & World Report.

The Lewis College houses undergraduate and graduate programs in dental hygiene, healthcare informatics, health sciences, nutrition, and respiratory therapy and doctoral programs in occupational therapy and physical therapy in addition to the nursing programs. In the past 50+ years, the SON has prepared more than 7,000 nurses, nurse practitioners, educators, and researchers. Interdisciplinary professional education is a strong component in the college as are innovative bachelor degree programs in interdisciplinary studies.

Effective Date and Compensation:
Fall semester 2022. Competitive compensation package.

Interested individuals should contact Dr. Terri Hendry, Chair of the Search Committee, athendry@gsu.edu for further information and reference Log# 23-097.

Georgia State University is an Equal Opportunity / Affirmative Action university and accommodates individuals with disabilities. All applicants must comply with the Immigration Reform and Control Act. Women and minorities are strongly encouraged to apply.
